

Phil 107 Hegel Paper Topic

Write a 4-5 page paper explaining the main claim and argument of either “Sense Certainty” or “Perception”. In the course of your paper, be sure to consider what position is being criticized, what different models are being considered, the different criticisms of each of these models, as well as what conclusion Hegel draws from the failure of each of the models.

Try to be as clear as possible in the organization of your paper and in explaining the central points in your own words. (Do not simply rehash Hegel’s own terminology.)

If you write your paper on “Sense Certainty”, it is due by 11:00 am, on Tuesday, October 27.

If you write your paper on “Perception”, it is due by 11:00 am, on Tuesday, November 3.

You must turn in a hard copy of your paper in class **and** submit an electronic version to turnitin.com (instructions below)
